WIRELESS DRIVEWAY ALARM (R4450)

This device alerts you of vehicles entering your driveway (with or without an automated gate). The indoor base station signals you with a door chime when a vehicle passes the driveway sensor.

STANDARD FEATURES

- Instantly be alerted when someone pulls into or out of your driveway.
- Functional range of up to 400 ft. (122 m).
- Indoor chime announces visitors or unwelcome guests.
- Electromagnetic sensor only senses large metal objects.
- Indoor receiver can be mounted on a table or wall.
- Easy-to-install and stake is included in kit.
- Transmitter requires 2 “C” batteries (not included).
- Long battery life.
- Low battery indicator on both the indoor receiver and transmitter.

**Indoor
Receiver/Announcer**

**Outdoor Driveway
Transmitter**

The driveway alarm contains: Installation hardware, stake, outdoor driveway transmitter, indoor receiver/announcer and transformer for indoor receiver/announcer.
